Dear Fellow Trial Attorney:

I am writing this letter to let you know about our firm's positive experiences with INJURY FUNDS NOW(IFN). In a market saturated with so many pre-settlement funding companies, IFN is a resource you can trust. Our firm has worked with Lauren Lipcon, Program Director, for many years now, and we have always had a positive experience, finding her quick, professional, and easy to work with. Most importantly, IFN's pricing is competitive, and they are very careful not overfund a case. When it comes time to settle, IFN has always been willing to work with us in order to get the settlement done quickly.

This is not the type of service that is appropriate for every case and should only be recommended if it is in your client's best interest. But, if your client decides to receive pre-settlement funding, it only makes sense to work with someone who has a proven track record. The Haggard Firm trusts Injury Funds Now with our clients. IFN & Lauren Lipcon have been supporting both the FJA and the MDJA for more than 10 years now and we have developed an excellent working relationship.

Did you know that many of the large national funding firms are also in the business of buying annuity payments? This is not in the client's best interest where an annuity is appropriate. It defeats the reason to buy an annuity in the first place. IFN does not buy annuities.

Next time one of your clients comes to you looking for more information on pre-settlement funding, please consider giving IFN the opportunity to provide a quote. You will see that their application process is hassle free and that their terms are quite reasonable. If you have questions or would like more information, please contact Lauren Lipcon at 305-538-2612 or visit www.injuryfundsnow.com. You can also reach Lauren by email at llipcon@injuryfundsnow.com or toll free at 1-866-68-FUNDS.

Very Truly Yours,

Michael A. Haggard, Esq.
